Price: \$ 22,000.

F.O.B. LITITZ, PA

The guide rolls appear to have been custom built and use threaded studs and nuts to adjust in and out. They do not look like the guide rolls I have seen on most Roundo rolls.

This machine is located in our warehouse in Lititz, PA. We can put power to this machine so it can be inspected under power. We have run this machine and it appears to be in good condition. I do not know the age of this machine, but I would estimate it to be from the 70's. Please contact us with any questions.
